## Summary

System Engineer with expertise across Linux administration, network management, and database optimization, managing 50+ servers and handling 2M+ daily messages in real-time data environments. Skilled in leveraging tools like Jenkins, Grafana, MySQL, and Kafka to improve system uptime by 35% and reduce deployment times by 30%. Adept at resolving complex technical issues and streamlining infrastructure workflows, contributing to 45% faster incident resolution. Seeking to apply technical acumen and optimization skills to a System Engineer or Infrastructure Engineering role.

## Experience

NMSWORKS SOFTWARE PVT LTD Gurgaon  
TECHNICAL SUPPORT ENGINEER 04/2024 - Present

- Administered and optimized **50+ Linux servers**, improving uptime by **35%** through proactive monitoring with **Grafana** and alert automation.
- Engineered **CI/CD pipelines** via **Jenkins** and **GitLab**, reducing deployment time by **30%** and increasing release frequency by **25%**.
- Automated **20+ operational tasks** using **Bash scripts**, enhancing workflow efficiency and cutting manual intervention by **40%**.
- Diagnosed and resolved **100+ high-severity incidents** monthly, cutting average resolution time by **45%**.
- Managed **MySQL databases** exceeding **500K records**, optimizing queries to improve data retrieval speed by **25%**.
- Deployed and maintained **Kafka clusters** handling **2M+ messages daily**, improving real-time data streaming reliability by **40%**.

INKNOWTECH Gurgaon  
NETWORK SUPPORT ENGINEER 10/2022 - 03/2024

(Tech Mahindra – Bharti Airtel Project)

- Supervised **network infrastructure** across **100+ client sites**, reducing outage frequency by **30%** through proactive monitoring and escalation.
- Collaborated with **10+ vendors** to resolve critical **network issues**, achieving **98% SLA compliance**.
- Delivered **Tier-2 support** for **200+ users**, improving end-user satisfaction scores by **20%**.
- Monitored **ISP backbone performance** using **NMS tools**, identifying bottlenecks and reducing downtime by **25%**.

RHYTHM TECHNOLOGIES Gurgaon  
NETWORK ENGINEER 03/2022 - 09/2022

- Configured and maintained **10+ Windows Server** and **AWS EC2 instances**, improving application availability by **15%**.
- Managed **MS-SQL database operations** and implemented **backup strategies**, reducing recovery time from **2 hours to 30 minutes**.
- Installed and tested **network hardware** for **15+ enterprise clients**, enhancing connectivity and reducing **packet loss by 20%**.

## Education

Dr. A.P.J. Abdul Kalam Technical University (AKTU) Lucknow, UP  
Bachelor of Technology (B.Tech.) in Computer Science Engineering 08/2021

- Relevant Coursework:** Computer Networks, Operating Systems, DBMS, Cloud Computing, Network Security, Data Structures & Algorithms, Web Technologies, Linux Administration, IoT, Software Engineering

## Skills

### Operating Systems & Server Management:

Linux (RedHat, Ubuntu), Windows Server, AWS EC2, File System Management, User & Permission Management, System Monitoring, Patch Management, Performance Tuning, Log Analysis, Virtualization (VMware, Hyper-V), Backup & Recovery, Scripting

Cloud & DevOps Tools: AWS, Docker, Kubernetes, Jenkins, Terraform, Ansible, CI/CD Pipelines, CloudFormation, ECS, EKS, S3, Lambda

### Networking & Security:

TCP/IP, DNS, DHCP, VPN, Firewalls, Network Monitoring, Wireshark, Troubleshooting, Load Balancing, NAT, Security Patching, SSL/TLS

### Databases & Messaging Systems:

SQL Server, MySQL, PostgreSQL, Database Backup & Restore, Query Optimization, Data Migration, Kafka, Redis, Database Monitoring, Indexing, Stored Procedures, Data Integrity Checks

### Monitoring & Automation Tools:

Grafana, Prometheus, CloudWatch, Nagios, Zabbix, Logstash, ELK Stack, Scripting Automation (Bash, Python), Cron Jobs, Alerting Systems, System Health Checks, Incident Management

### Version Control & Collaboration:

Git, GitHub, Git Bash, Source Code Management, Branching & Merging, Code Review, Agile / Scrum, Jira, Confluence, Documentation, Team Collaboration, Workflow Automation
